The city of Toronto experiences a humid continental climate (warm, humid summers) compared to other cities in Ontario due to its southerly location within the country and its proximity to Lake Ontario. Summer starts in June and lasts until September. The mean temperatures range is from 12 °C to 22 °C and the weather is pleasant. Due to its proximity to Lake Ontario, days tend to be humid, cooling off slightly at night. It rains approximately six out of 30 days in June.

- Low (night): 11 °Celsius (52 °Fahrenheit)
