

ADVANCING NET ZERO

▸ Business ◀ | City | States & Regions

ANTILOOPPI

Real Estate Management Company

🏠 Owner

Antilooppi are a real estate owner focused on office properties in the Helsinki Metropolitan Area, creating inventive and flexible solutions based on customers' needs and operations, and ensuring the property and surrounding area are functional and sustainable.

40 buildings

615,000 m² total floor area

18,500 tCO₂e portfolio carbon emissions

36 employees

1 Commit

Commit to only owning assets that are net zero carbon in operation by 2030.

2 Disclose

Measure and disclose energy consumption and carbon emissions via annual sustainability report using the GRI reporting standard.

3 Act

Continue to implement a decarbonisation plan for assets within the portfolio, including more energy efficiency measures, exploring the potential for on-site renewable energy production and purchasing off-site renewable energy certificates.

4 Verify

Verify energy consumption and carbon emissions data using a third party service provider for verification.

5 Advocate

Advocate for industry transformation by participating in and opening conversations with the built environment sector. Identify relevant stakeholders, clients and service providers with whom to communicate and share knowledge to accelerate change to achieve their net zero goals. Develop new business models to support stakeholder carbon neutrality targets.
