

ADVANCING NET ZERO

Business | City | States & Regions

BUROHAPPOLD ENGINEERING

Global Engineering Firm

Key Tenant

BuroHappold Engineering is an international, integrated engineering consultancy operating in 23 locations worldwide with 1,700 employees. For over 40 years, BuroHappold Engineering has been building a reputation for delivering creative, value-led building and city solutions for an ever changing world and is committed to tackling climate change as a business priority.

24 offices

17,824 m² total floor area

978 tCO₂e portfolio carbon emissions

1,700 employees

1 Commit

Commit to being net zero carbon for business operations by 2021. This includes Scope 1 and 2 emissions from global offices and Scope 3 emissions from business travel.

2 Disclose

Disclose energy commitments via annual reports on Scope 1, 2 and 3 energy consumption and carbon emissions.

3 Act

Increase energy efficiency by identifying cost-effective energy saving measures available from government schemes, undertaking building refurbishments and embedding smart energy monitoring through 'best-in-class' energy reporting platforms. Identify potential for on-site renewable energy generation and procure 100% certified renewable electricity as much as possible.

4 Verify

Undertake third party verification of asset and portfolio level data through independent accredited auditors. Publicly report assured data via annual reporting.

5 Advocate

Continue to advocate wider industry towards targets for new build projects to be net zero carbon in operation by 2030, and all projects by 2050 through leading 'Engineers Declare', national policy advocacy with Aldersgate Group and publishing thought leadership on climate action and air quality in cities.
