Ensure all real estate assets within the global portfolio operate at net zero carbon by 2030.

Measure and disclose global energy consumption alongside scope 1, 2 and 3 greenhouse gas emissions.

Implement Deloitte’s "Better Buildings" real estate decarbonisation roadmap by right-sizing offices at lease events, refurbishing them considering energy efficiency and wider sustainability performance, closely managing operational energy consumption, and procuring 100% renewable electricity.

Obtain third party assurance for global energy consumption and carbon emissions data within the next three years.

Advocate and accelerate the net zero transition both through WorldClimate and our firms’ client work.

750 assets
3,200,000 m² total floor area
150 countries of operation
330,000 people
