29 buildings  
481,151m<sup>2</sup> total floor area  
20,472 tCO<sub>2</sub>e portfolio carbon emissions  
713 employees

- 1 Commit**  
Company-wide target to own, occupy and develop only buildings that are net zero carbon by 2028.
- 2 Disclose**  
Currently disclose Scope 1 & 2 operational carbon emissions and energy consumption via annual sustainability reporting.
- 3 Act**  
Decrease energy intensity company-wide by 20% by 2020 through proactive energy efficiency and retrofit measures, and incorporate renewable energy into all new developments.
- 4 Verify**  
Use a mixture of local legislative market mechanisms and Green Star and other certifications to demonstrate energy reduction for corporate and commercial properties.
- 5 Advocate**  
Acting to make clean energy accessible for all by 2030.
