

JLL UK Real Estate Services

🔑 Tenant

JLL UK is a leading professional services firm that specialises in real estate and investment management services helping over 4,000 clients achieve their business ambitions. The company vision is to reimagine the world of real estate, creating rewarding opportunities and amazing spaces. Building a Better Tomorrow for clients, people and communities.

25 UK buildings
26,715 m² total floor area
1,288 tCO₂e portfolio carbon emissions
4,559 employees

- 1 Commit**
Commit to achieving zero operational carbon emissions in own UK workplaces by 2030.
- 2 Disclose**
Disclose performance results through UK sustainability report which includes carbon emissions from workplaces and examples of driving emission reductions in clients' portfolios. Scope 1, 2 and 3 emissions will be disclosed in JLL's global sustainability report.
- 3 Act**
Drive energy reductions through fit-outs and operations across JLL UK workplaces and engage with landlords to procure renewable energy. Globally, JLL has pledged to become signatory to the Science Based Target initiative, with 2035 targets to be published in 2020.
- 4 Verify**
Target to achieve Ska Gold certification for all UK fit-outs and LEED/BREEAM certification for bigger offices globally. Externally verify carbon data in a UK annual sustainability report by 2021.
- 5 Advocate**
Commit to educating and influencing to make net zero carbon mainstream. By 2021, zero carbon advice will be integrated into all services, and work with at least 10 clients to develop net zero carbon strategies or roadmaps. Measure upfront embodied carbon in own workplace fitouts, with a view to halving impact by 2030. Influence policy decisions and scale up action through industry engagement.

UK division of JLL and a member of UKGBC
