## LLOYDS BANKING GROUP

Financial Institution

🔑 Tenant 🏠 Owner

Lloyds Banking Group is a leading UK based financial services group providing a wide range of banking, insurance and financial services, focused on personal and commercial customers. They recognise that, by helping to finance a greener future, they can have a real impact in tackling climate change. This will require new ways of living, working and investing for their business and customers.

1,855 assets

1,356,790 m<sup>2</sup> total floor area

39,107 tCO<sub>2</sub>e portfolio carbon emissions

63,069 employees

### 1 Commit

Commit to only owning and occupying net zero carbon operational assets by 2030.

### 2 Disclose

Measure and disclose energy consumption and carbon emissions, making the data publicly available in annual reporting.

### 3 Act

Implement a decarbonisation plan for all owned and occupied buildings, and improve energy efficiency, reducing total energy consumption by 50% by 2030 (baseline 2018/2019), and to continue to only procure renewable electricity.

### 4 Verify

Verify energy consumption and carbon emissions data annually by a third party, and disclose in annual reporting.

### 5 Advocate

Advocate for industry-wide transformation by working with customers, government and the market to help reduce the emissions they finance by more than 50% by 2030. Continue to activate businesses to invest in tackling climate change through their Clean Growth Finance Initiative. Continue to collaborate with other leading businesses on climate action and urge government to deliver a clean recovery plan.
