AESG

Specialist consultancy firm

Owner Tenant

AESG is an award-winning specialist engineering, consultancy and advisory firm with a global portfolio of world class projects. The company mission is to positively contribute to creating a better world.

4 offices

3 countries

Active in more than 15 countries

1 Commit

By 2030, AESG commits to advocating net zero principles across all of their own assets and projects, with an advanced target to achieve net zero for scope 1, 2 and 3 emissions by 2021.

2 Disclose

AESG publishes an annual sustainability report, made publicly available through the company website. The report will include full disclosure of carbon footprint and progress towards net zero.

3 Act

Target a 5% annual reduction in scope 1, 2 & 3 carbon emissions from a 2019 baseline, as well as exploring onsite and offsite renewable energy options.

4 Verify

All owned assets are a minimum LEED Gold certified or equivalent. LEED Arc platform to be utilised for all owned assets by 2021 to verify operational performance.

5 Advocate

AESG will provide a pathway to net zero for all design projects from 2020, and will continue to conduct research into achieving net zero within the built environment.

a member of Emirates Green Building Council and UK Green Building Council
