Commit
Commit to buildings owned, managed and developed operating at net zero carbon by 2030.

Disclose
Disclose scope 1 & 2 energy consumption and emissions data on an annual basis through third party assured annual reporting.

Act
Maximise on site energy generation and storage across all buildings. Source remaining requirements from off-site renewable energy sources. Increase NABERS energy targets to 5.5 stars for all new and existing buildings. Install smart energy management monitoring through the Envizi data management platform.

Verify
Verify via third party certification such as NABERS and Green Star and by independent third party assurance.

Advocate
Promote the Net Zero Carbon Buildings Commitment and pathways to achieving these goals to stakeholders including tenants, Cbus members and the wider development and construction industry.

8 buildings
321,235 m² total floor area
16,044 tCO₂e portfolio carbon emissions
38 employees
